1. Featuring a 16-50mm f/3.5-5.6 zoom lens, this Sony a6000 24.3-megapixel mirrorless camera lets you take up-close shots of faraway subjects in crisp, sharp detail.5 Best Japanese 35mm Film SLR Cameras. The automated nature of the five cameras we chose was perfect for those photo geeks interested in making beautiful photos with ease. But today we're going to talk about something a bit different. Today's top five is all about vintage SLR (single lens reflex) cameras.It is compatible with an extensive range of AI, AIS and AI'd Nikon lenses, including some of the very best manual focus SLR lenses, of which I have several. It is very similar similar to the camera I learned on as a kid and everything about it just feels right.The Canon Powershot G7 X Mark II is the update to the G7 X, and as a serious compact camera with a larger than normal 20-megapixel 1inch sensor and it provides excellent image quality, with a...
