

Download Data Protection And Compliance In Context

The General Data Protection Regulation (EU) 2016/679 ("GDPR") is a regulation in EU law on data protection and privacy for all individuals within the European Union (EU) and the European Economic Area (EEA). It also addresses the export of personal data outside the EU and EEA areas. The GDPR aims primarily to give control to individuals over their personal data and to simplify the regulatory ...The Compliance Manager in the Microsoft Service Trust Portal provides tools to track, implement, and manage the controls to help your organization reach compliance with security and data protection industry standards (such as GDPR, ISO 27001 and 27018, and HIPAA) when measured against Microsoft cloud services, such as Office 365 and Microsoft Azure. The Data Protection Directive (officially Directive 95/46/EC on the protection of individuals with regard to the processing of personal data (PII (US)) and on the free movement of such data) was a European Union directive adopted in 1995 which regulates the processing of personal data within the European Union. It is an important component of EU privacy and human rights law. AWS compliance, data protection, and security experts have been working with customers around the world to answer their questions and help them prepare for running workloads in the AWS Cloud after the GDPR becomes enforceable.
