

Download Lab Manual Tig And Mig Welding

Production Welding We offer resistance, robotic & manual MIG welding of production volumes. MIG/MAG Welding: The High-Speed Welding Process. MIG/MAG welding is also referred to as gas metal arc welding. A differentiation is made between metal inert gas welding (MIG) and metal active gas welding (MAG). Antra AH6-260 Series welding helmet is extremely fast responsive to electric arc from TIG, MIG, MMA or Plasma applications. This light weight welding helmet is so versatile that it can be used on grinding, cutting and welding applications. MCC offers an Associate of Applied Science Degree (A.A.S.) and a Professional Certificate in Welding Technology. Students in the A.A.S. Welding Technology program develop a variety of technical skills and knowledge of industry norms that are informed by theory and built on an academic foundation that includes mathematics and communication.
