

Download Nfpa 70e Training Guide

Standard for Electrical Safety in the Workplace®. Originally developed at OSHA's request, NFPA 70E helps companies and employees avoid workplace injuries and fatalities due to shock, electrocution, arc flash, and arc blast, and assists in complying with OSHA 1910 Subpart S and OSHA 1926 Subpart K. A Very Short Guide to NFPA 70E. While it technically applies to all workplaces (libraries, schools, hospitals, supermarkets, law offices, etc.), NFPA 70E is enforced most often on construction sites and at industrial plants. Anywhere that electrical construction and maintenance work happen is a workplace. This arc flash training course is for anyone working on energized electrical equipment and includes NFPA 70E and OSHA requirements for shock and arc hazards. Attendees will learn the latest in electrical safety standards and regulations. Whether you call the training electrical safety training, 70E training, or arc flash training, it is a good idea to read this guide first as it may generate some good questions to have clarified during your training. Access To The 70E Standard. Every facility, company or organization needs an easily accessible copy of 70E.
