

# Download Revive Airtronics Nicd Battery

To zap a dead Ni-Cad battery back to life, put the Ni-Cad battery into the 'zapping' battery holder and a good alkaline battery into the battery holder on the camera's circuit. Turn on the charge switch and wait for the neon/LED to glow. When it starts glowing, push the push-button switch and you may hear a loud 'POP'. In this video I'll show you how to bring to life dead NiCd battery from cordless power tools. Nicd batteries often die in such a way that they won't take a charge and have zero voltage. Batteries are expensive, and as the proud owner of at least a dozen dead AA NiCD batteries I'm too cheap to discard, Indestructibles' latest hack will be the first I am certain to implement ... How to fix Airtronics Nicd Battery Now you don't have to buy a new Airtronics NiCd battery, or any other Nickel Cadmium battery, you can fix the dead nicd battery in few minutes with the help of this NICAD Battery repair guide Same technique for all your NiCad batteries. If you are looking for a new replacement battery, or a whole new cordless tool because your old batteries won't hold or take ...
