

Download Selected Climbs In The Cascades Volume I

The Washington Cascades, part of the Cascade Mountain Range which extends from British Columbia to California, offer hundreds of miles of hiking, snow-shoeing, skiing and cross-country skiing trails; many ski resorts; and countless opportunities for camping, backpacking and mountain climbing in one of the world's most beautiful and accessible mountain ranges. North Cascades National Park is an American national park in the state of Washington. At more than 500,000 acres (200,000 ha), North Cascades National Park is the largest of the three National Park Service units that comprise the North Cascades National Park Complex. North Cascades National Park consists of a northern and southern section, bisected by the Skagit River that flows through Ross ... At 100 Ft tall, Ramsey Cascades is the tallest waterfall in the park and perhaps one of the most stunning. This remote hike requires an 8 mile round-trip to reach the falls and is quite strenuous. Ramsey Cascades is located in the Greenbrier area of the Great Smoky Mountains National Park, a great place for seeing large, old-growth Hemlocks and Poplars. Mount Hood, called Wy'east by the Multnomah tribe, is a potentially active stratovolcano in the Cascade Volcanic Arc. It was formed by a subduction zone on the Pacific coast and rests in the Pacific Northwest region of the United States. It is located about 50 miles (80 km) east-southeast of Portland, on the border between Clackamas and Hood River counties.
