Polaris received \$1.75 million through competitive funding through the U.S. Department of Health and Human Services, Administration for Children and Families, Grant # 90ZV0134-01-00. Visit the post for more. Employer reliance on degrees and other proxies for pedigree in the hiring process is not only hampering economic growth – it is destroying the American Dream for too many job seekers. The MSU Division of Public Health focuses on population health from its home base – the College of Human Medicine’s Flint campus. Being embedded in the Flint community allows our faculty and researchers to understand the assets and needs of the community while studying Flint’s most pressing public health issues. There is a worldwide conspiracy being orchestrated by an extremely powerful and influential group of genetically-related individuals (at least at the highest echelons) which include many of the world's wealthiest people, top political leaders, and corporate elite, as well as members of the so-called Black Nobility of Europe (dominated by the British Crown) whose goal is to create a One World ...
