

Download Trumpf Laser 5000 Manual Pdf

Products – TruLaser Tube 5000 fiber TruLaser Tube TruLaser Tube 5000 fiber Solid-state laser technology means quick and flexible processing. The TruLaser Tube 5000 fiber is built on these strengths like no other laser tube cutting machine. With RapidCut, you can reduce part times for material thicknesses of up to 3 mm. The TruMark Series 5000 has a consistent modular design. The scanner optics, processing unit, and supply unit are coupled using plug connections so that the lasers are very easy to integrate in your production system or plant. The air-cooled lasers are extremely compact and feature numerous interfaces: a great advantage for integration. The answer to your manufacturing needs. 2 Contents Laser systems ... TRUMPF laser systems enable you to quickly and easily carry out retooling, welding, cutting, and deposition welding ...
